

ÉTOILE-LED OR CRYSTAL-LED WITH CABLE

IP44 |  |  | 100-250V~/5V= Maxi 20-100W/power supply | 0-45°C | CE, CB, UL, cUL

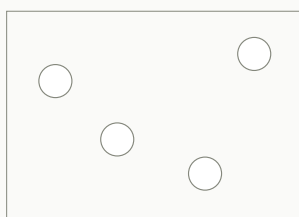

Variation: 100 kΩ, 0-10V

In rare cases (for furniture, hanging light, yacht) we recommend using LEDs with cable instead of pinning them in composite conductive plates.

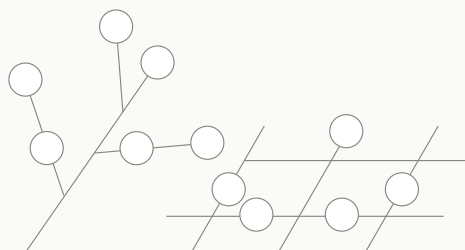

Our LEDs with cable are perfectly adapted to these cases. The technical sheet entitled "Starlit or Crystal ceiling/wall" presents the characteristics of LEDs, Crystals, and power supply.

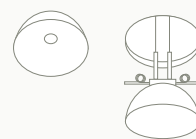

Examples

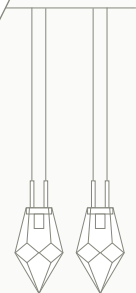

Wall of a yacht

LEDs mounted on metal tubes

LEDs mounted on springs

Suspended crystals
